Tom Potiowsky, PhD.
U.S. Outlook
Tom is Senior Advisor and former Director of the Northwest Economic Research Center (NERC). Dr. Potiowsky retired September 2017 as Professor and Chair of the Portland State University Department of Economics, and formerly served as the State Economist for Oregon. Tom has been active in publishing and presenting at academic conferences in the areas of macroeconomics and forecasting. He is a member of the American Economic Association, also served on the Boards of the Federal Home Loan Banks of Seattle and Des Moines, presently serves on the Board for the Oregon Council on Economic Education. Tom received a Ph.D. in Economics from the University of Colorado in 1981, also received the Governance Fellow Certificate from the National Association of Corporate Directors.

Chris Lawless
Canada Outlook
Chris Lawless is chief economist at the British Columbia Investment Management Corporation, providing analysis and advice on economic and financial issues, and long-horizon investment strategy and risks. With extensive experience analyzing policy and forecasting the British Columbia, Canadian and global economies, Chris has served as chief economist with the B.C. Ministry of Finance, with the Library of Parliament’s economic research service, and as an advisor to House of Commons and Senate committees. Chris is a director and past-president of the Canadian Association for Business Economics, vice-president of the Pacific Northwest Regional Economic Conference, and a member of various boards, including the Border Policy Research Institute at Western Washington University and the Art Gallery of Greater Victoria. Chris has an M.A. in economics from Carleton University in Ottawa, and holds the Certified Business Economist designation from the National Association for Business Economics.
Dan Stickel
Alaska, U.S.

I grew up in Alaska and received my degree in management from the University of Alaska – Southeast. I’ve been with the Department of Revenue since 2004 first as an economist and then as a petroleum economist. Much of my work has been focused on forecasting and analysis related to the oil and gas industry and the oil and gas fiscal system. I’ve served as the Chief Economist for the department since 2016.

Felicia Mutheardy
Alberta, CA

Felicia Mutheardy is the acting Chief Economist with the City of Edmonton and has almost a decade of experience in economic analysis, research, forecasting, and government administration. Prior to joining the City, Felicia was a Senior Economist with the Government of Alberta. She has also held various positions with Canada Mortgage and Housing Corporation, primarily with their Market Analysis Centre.

Felicia holds both a Bachelor of Arts and Master of Arts degree in Economics from Carleton University in Ottawa, Ontario.

Joachim Ramm
British Columbia, CA

Joachim is a Senior Economic Analyst at the British Columbia (B.C.) Ministry of Finance, focused on providing economic analysis and forecasts. Prior to joining the Ministry of Finance, he held economist positions at various “dirt” ministries within the B.C. government, including the Ministry of Natural Gas Development and the Ministry of Forests, Lands, Natural Resource Operations and Rural Development. Celebrating 5 years in Canada, Joachim previously served as an advisor for the national government in his native Norway, where he was responsible for municipal financing. Joachim holds a M.A. in Economics from the university of Bergen in Norway.
Vanessa Fry, PhD  
Idaho, U.S.
Vanessa is Interim Director and Assistant Research Professor at the Idaho Policy Institute (IPI) at Boise State University. Vanessa’s career has focused on utilizing multi-sector, evidenced-based solutions to address persistent social, environmental, and economic issues. At IPI Vanessa leads projects focusing on issues including education, transportation, housing and homelessness.

Pat Barkey, PhD  
Montana, U.S.
Patrick Barkey is the Director of the Bureau of Business and Economic Research at the University of Montana. He has been involved with economic forecasting and policy research for more than 30 years, in both the private and public sectors.

Before coming to Montana he served as Director of the Bureau of Business Research at Ball State University in Indiana for fourteen years. His recent research has been on the economic impact of energy development, the property tax treatment of the telecommunications industry and the economic impact of trade with Canada. He holds a B.A. and a Ph.D. in economics from the University of Michigan.

Mark McMullen  
Oregon, U.S.
Mark McMullen serves as the State Economist and director of the Oregon Office of Economic Analysis. The office provides objective forecasts of the state’s economy, tax revenue and population to advance the goals of the Governor, Legislature, state agencies, and the public. Prior to joining OEA in the fall of 2010, Mark served as Director of Consulting at Moody’s Analytics and was a researcher at both the Congressional Budget Office. Mark was an undergraduate at Pomona College and completed his graduate work at the University of Pennsylvania.
Roger Coupal, PhD  
Wyoming, U.S.  
Dr. Roger Coupal is a regional economist Department of Agricultural and Applied Economics at the University of Wyoming. His area of focus is community development and natural resource policy. Most of his work has been in the nexus of issues in local economic development and natural resource policy and management. He works on energy development impacts, electricity markets, ecosystem services valuation, tourism/recreation studies, and more, as it interacts with community development, both in terms of jobs and income impacts, and local public finance questions. Roger Coupal received his PhD from Washington State University in 1997 and a Master’s Degree from the University of Arizona in 1985.

Bret Bertolin  
Washington, U.S.  
Bret Bertolin has been with the Economic and Revenue Forecast Council (ERFC) since its inception in 1984. The ERFC is charged with preparing economic analyses and revenue forecasts for the Governor and the Legislature of the state of Washington. Bret's primary focus at the ERFC is producing the state's economic forecast. Prior to joining the ERFC, he worked as an economist with Seattle-First National Bank. Bret received both his Bachelor's and Master’s degrees in economics from Yale University.
